

Technical data

Maximum load capacity: 120 kg.

Weight of chair: 11 kg

Footprint size: with casters 58 cm; with gliders 55 cm

Seat diameter: 40 cm

Seat height Medium spring (60 - 120kg) Unloaded: 52 - 65 cm; Loaded: 45 - 60 cm

Light spring (50 - 70 kg) Unloaded: 47 - 61 cm; Loaded: 42 - 56 cm

Packaged size: 780 x 580 x 250 cm

Packaged weight: with casters 14,5 kg; with gliders 14 kg

Warranty: 3 years, applicable in case of direct purchase from approved dealer. Relates to material and functional defects on all original parts. Excludes normal wear-and-tear and inappropriate handling.

Care instructions

Cover fabric

Easy to clean. Always use a clean, white cotton cloth and clear water. If necessary, use pH-neutral soap-suds and rinse afterwards with clear water.

Stains: Remove immediately and with care, as follows:

swopper CLASSIC

Microfibre seat cover: Use a clean white cotton cloth. Optimum care is ensured by using pH-neutral soap-suds. Stains containing oil and fat should be treated beforehand with ethyl alcohol. Rinse with clear water after each cleaning action.

Never use chlorinated detergents. Do not allow moisture to penetrate the seat and use only very small amounts of detergent.

Warning: Benzene, acetone and the like might dissolve the foam material if they penetrate.

swopper AIR

Climate/net structure seat cover: Always use a clean, white cotton cloth. You can remove most stains using lukewarm water, if necessary with a little pH-neutral liquid dishwashing detergent. After each cleaning action rinse with clear water.

Never use chlorinated detergents. Do not allow moisture to penetrate the seat and use only very small amounts of detergent.

Warning: Benzene, acetone and the like might dissolve the foam material if they penetrate.

Base ring

Dark marks left by the soles of shoes on the base ring are best removed using a soft eraser (or a cloth with a small drop of benzene).
